BOARDING

Our aim is to provide a comfortable and safe home for young people.

In 2009/10 the school has two residences, the "Altersheim" for boys on the school campus and the "Ratz" (named after an early boat builder) for girls, directly on the lake.

Both residences are newly restored and furnished, with twin rooms and en-suite facilities. The top floor of each residence contains a very large open-plan apartment with high ceilings. This is a very attractive option and four to six very responsible students are selected for it.

The residences are a shared home. It is expected that the students respect the rights of the other students and staff of the house and respect the physical environment of the residence. Everyone is responsible for maintaining the necessary routines and for completing allocated duties.

Junior Boarding (planned for 2010/11)

Boys' Boarding

Girls' Boarding
