## VILLAGE CAMPUS

The St. Gilgen International School has the biggest and most beautiful campus imaginable.

Our immediate school campus is in a spacious lakefront school park with its carefully renovated historic and newly built academic and boarding facilities, right in the village centre. From here students walk or bicycle to other school facilities in the village such as our own cinema & theatre, our "art garage", modern gymnasias, the nearby rowing and sailing clubs, tennis and basketball courts, the indoor swimming pool or the "Freibad" to swim in the lake.

We consider much more as part of our extended campus where learning takes place:

The lake, neighbouring villages accessible by boat, paths in the surrounding mountains, the festival city of Salzburg.

The design of the school favours a strong sense of community and reflects a spirit of openness. Our students like to walk through the village and they also like to gather on our very own "Plaza", or in the spacious open floor "soft spaces" in each academic building, or in our library and media centre. Our students benefit from our very own "Greisslerei" (a convenience store) centrally located on the school campus (offering a wide range of everyday items such as stationery and healthy snacks), with its integrated Café and tables opening out onto the Plaza.

Visitors and guests are welcome here and they quickly appreciate the very special atmosphere of our village campus.
