THE ESSENCE

Young, great minds, from Grades 8 to 10, come together at St. Gilgen International School to find unexpected solutions. You will be talking, listening, moving and having fun with other people, using resources in and outside our school, on the lake, up the mountains, through the woods, in the village.... spend time in our Kino, media centre, soft space, art garage, labs, and classrooms looking for the direction, ideas and the way you will communicate these to other groups. The last session of the conference sets the only limit – it is the time to present your solution.
