

BOARDING

Our aim is to provide a comfortable and safe home for young people.

In the Academic Year 2010/10 our boarding facilities are being enriched and expanded. Our nurturing on-campus Junior Board House will be supplemented by separate and high-quality Boys' and Girls' Boarding Houses.

Residences are newly restored and furnished, with twin rooms and en-suite facilities.

The residences are a shared home. It is expected that the students respect the rights of the other students and staff of the house and respect the physical environment of the residence. Everyone is responsible for maintaining the necessary routines and for completing allocated duties.
